About the summit

FutureTech Summit 2026 is a two-day fictional technology symposium focused on practical engineering, architecture, data and security. The program combines keynotes, technical sessions, panels and hands-on workshops.

Tracks

Artificial Intelligence; Software Architecture; Cloud & DevOps; Data Engineering; Cybersecurity.

General schedule

07:30-09:00	Registration and welcome coffee
09:00-10:00	Opening keynote
10:15-12:30	Morning sessions
12:30-14:00	Lunch interval
14:00-17:40	Afternoon sessions and workshops
17:45-19:00	Community activities / closing program

Access and badge rules

Attendees must display their event badge while inside session areas. Standard and Premium badges provide access to regular sessions. Workshop access depends on ticket category and room capacity. Lost badges may be reissued once after identity verification at Registration.

Premium attendee benefit

Premium attendees may access all hands-on workshops without additional registration, subject to room capacity.

Services available

Wi-Fi, charging stations, accessibility assistance, first-aid point, staffed information desk, coat and small-bag storage, food court, quiet work area and speaker help desk.

Important operational notes

Session rooms open 15 minutes before each scheduled start. Seats are not individually reserved. For workshops, organizers may close entry when the room reaches its safe operating capacity, even for eligible attendees.
